**SUBJECT: INVASIVE PLANT REMOVAL PROGRAM – CDP 04-47**

Doug,

Consistent with Coastal Commission staff determinations and similar actions by our adjacent coastal cities, the City of Carlsbad does also determine your Invasive Species Removal Program to be exempt from city requirements for a Coastal Development Permit (CDP) unless the future need is identified to use mechanized equipment within 20 feet of a coastal stream. In such case, pending Minor CDP 04-47 will be activated and used to process the focused effort consistent with Section of 21.201.070 A.1.d.

Thanks for your continued efforts within our coastal watersheds.

Sincerely,

A handwritten signature in black ink, appearing to read "EM".
