

City of Carlsbad

Planning Department

September 13, 2004

To Property Owners in Carlsbad:

The City of Carlsbad supports the Carlsbad Watershed Network's Invasive Species Removal Program. This program will remove plants such as Pampas Grass from your property at no cost to you. Invasive plants are a very significant problem in our open space areas. Removing them will provide many benefits to homeowners and businesses in Carlsbad. It will help save landscape maintenance costs as well as reduce the fire and flood hazards of our natural lands and open spaces. The program will be carried out by licensed and insured professionals. The contractors will also be working on city owned lands. If you have any questions about the City's endorsement of this program, please contact me at (760) 602-4602. Thank you.

Sincerely,

A handwritten signature in black ink that reads "Don Rideout".
